

ALBATROS GAS FIELD

Discovery Year: 1981

Last Year of production: 1997

Source Rock: Carboniferous

Reservoir Rock: Lower Cretaceous Siliciclastics
(Upper Albian - Lower Cenomanian)

Cumulative Production:

Gas*: 729 MNm³

Condensate** : 8.052,3 t

*Source: REPSOL

**Source: Ministerio de Energía, Turismo y Agenda Digital 2011

MNm³ = Millions of standard cubic metres

t = Metric tons
